

# Learning Management System (LMS)

## Computer System Technician

### USER STORIES

1. I have read a lot of books in the e-bookstore. All the materials are available exclusively at the E-Bookstore Cambrian College.
2. I was struggling to refer some notes while I was studying but then I got to know that all the materials could be found offline and online for almost all the courses available at Cambrian college.
3. Before I bought a laptop for myself, I used the computers available. There are available computers in the store so that students who don't have proper medium to read a book can read it easily.
4. I can easily find all the stationary available and at a lower price.
5. I like reading novels, and therefore I found out a lot of free novels available online at the e-bookstore's website.
